
Let your business take to the sky knowing it's covered by **an expert on the ground.**

From the mining sector to construction, film, agriculture, security and any industry in between, if you use drones for business and operate with a commercial pilot's licence, then iTOO's Commercial Drone & Unmanned Aviation cover is just for you.

As a commercial operator, from a start-up to a multi-corporate, you will know that without comprehensive cover, even the slightest fault in flight path could lead to insurmountable claims. With iTOO you can take to the sky knowing you're grounded by the best experts in the industry.

Why get your drones covered by iTOO?

When it comes to service and expertise, we soar. We're proudly the market leaders in drone insurance, having pioneered our country's first commercial drone product. iTOO's Commercial Drone & Unmanned Aviation Cover offers the only fully comprehensive package on the market. Our experts can insure against every risk from own damage and disappearance, to third party liability and personal accident. More and more commercial operators select iTOO because our specialist cover not only includes your drone and equipment but third party liability too. Our cover includes hull, spares and payload up to R4million and a weight of up to 86kg, with pay-outs based on the full replacement value of your drone or equipment.

Although you would have had to understand these restrictions to obtain your licence, staying up to date protects you from any unforeseen claims, whilst also ensuring best business practice. Please visit the South African Civil Aviation Authority to see how legislation applies to you and your business.

Because we also understand the industry, we know that your flight path is not limited to local landscapes and that is why our cover can be adapted to other countries, provided you have advised your broker and provided the relevant flight plans and travel details.

01. HULL & SPARES

- Loss of or damage to your drone airframe including detachable payloads
- Specified camera and lenses attaching to and forming part of the payload whilst in flight
- Disappearance of aerial hijacking or confiscation of your drone (theft/in transit)

02. PAYLOAD & SPARES

- Theft and damage in transit
- Accidental damage to spares

03. THIRD PARTY LIABILITY

- Accidental third-party injury or death.
- Accidental damage to someone else property.
- Damage to goods or products that form part of your drone or are used in conjunction with your drone.
- Damage to someone's else drone while in your custody or care.

WE ARE DIFFERENT

As experts we not only understand the various kinds of drones out there, but their use and relevance in their respective industries. We also believe in keeping you informed, which is why it's critically important to know the legislation around drone usage.

How do I get covered?

1. Contact your broker
   (Please contact us if you don't have a broker)
2. Provide the relevant proposal form
3. Attach the relevant licensing documentation i.e:
   - **RPL - Remote Pilot License**
   - **UAV CoR - Unmanned Aerial Vehicle Certificate of Registration**
   - **ROC - RPAS Operating Holder Certificate details**
4. Indicate the fee income earned from professional activities
5. Provide the claims history *(if any claims)*
