

THE **ULTIMATE** IN SUN PROTECTION

For over 15 years, we have focused exclusively on the insurance needs of renewable energy. Today, as the industry leader, iTOO Renew Risk provides the proven expertise and flexibility needed to write and manage the world's largest projects. Our SolarPro® policy is built upon industry leading underwriting practices, technical knowledge and field expertise to meet the specific needs of utility scale solar projects.

Industry Knowledge and Expertise

Each Pro policy is written upon 15+ years of experience insuring renewable energy projects and are the industry standard for a comprehensive suite of property, liability and cargo coverage.

Specialization and Focus

A dedicated underwriting team provides a tailored policy for all coverages; speeding up the process and offering integrated coverage for even the most complex projects.

Seamless Project Coverage from Start to Finish

Our policies offer comprehensive and seamless coverage throughout a project's lifecycle with no gaps in coverage as it moves from phase to phase.

Global Insurance Capability

Proven experience reaches across the globe to provide superior coverage to utility scale projects in the most geographically diverse locations supporting both established and emerging technologies.

Unrivalled Capacity and Security

Our policies are A.M. Best and S&P 'A+' rated capacity providing the financial security, proven expertise and flexibility needed to write and manage the largest renewable energy projects in the world today.

Dedicated and Responsive Claims Service

An experienced in-house claims team includes technical knowledge and approval authority to respond quickly to a claim and authorize payment to keep projects on track in the event of a loss.
